

Bill of Quantities (BOQ)

Hourglass IT's Bill of Quantities (BOQ) Software streamlines project cost management across industries like construction, manufacturing, and procurement. It enhances accuracy, efficiency, and profitability, from cost estimation to billing, helping you manage budgets, optimize margins, and collaborate seamlessly.

Cost Estimation

Define project scope by listing materials, labour, and services.

Factor in labour costs, equipment expenses, and overheads for accurate projections.

Billing Process

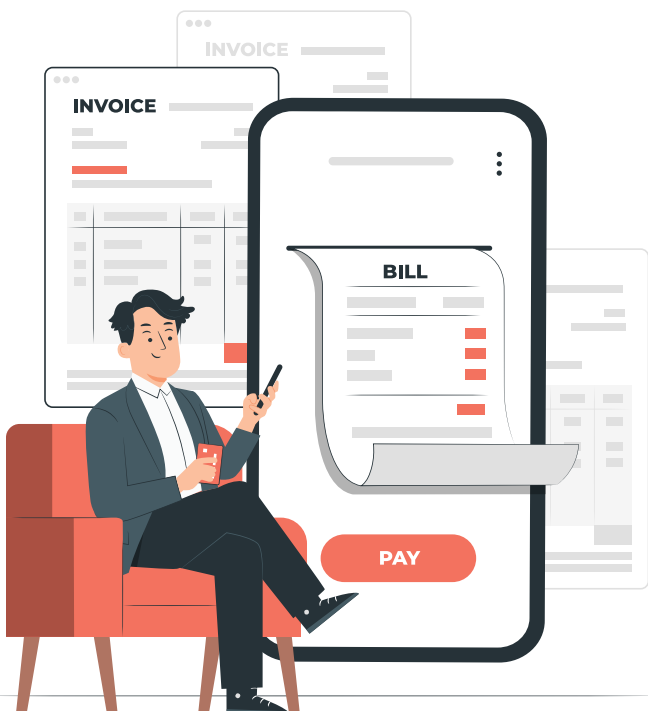

Convert estimated costs into invoices seamlessly.

Customize billing structures with milestone-based or progressive invoicing.

Generate detailed BOQ-based billing reports for clients and contractors.

Track payments, outstanding dues, and billing cycles efficiently.

Automate tax calculations and compliance checks.

Margin Analysis & Optimization

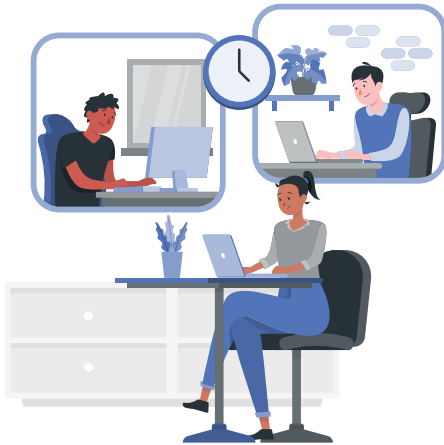

1. Calculate gross and net profit margins based on estimated and actual costs.
2. Identify cost deviations and inefficiencies in real time.
3. Compare project profitability across different items.
4. Generate insightful reports for margin optimization and cost-saving strategies.
5. Adjust pricing and procurement strategies to maintain profitability.

Cloud-Based Flexibility

1. Access BOQs securely from anywhere, on any device.
2. Eliminate hardware dependencies and ensure data security with cloud storage.
3. Enable seamless updates and collaboration without software installations.

Real-Time Collaboration

1. Share BOQs with stakeholders, and team members instantly.
2. Provide controlled access for approvals, edits, and reviews.
3. Track changes and updates in real-time to maintain project transparency.

Integration with Hourglass IT ERP

1. Sync with ERP, accounting, and project management software.
2. Automate data flow between procurement, finance, and inventory modules.
3. Ensure consistency in cost tracking and project budgeting.

Export BOQs in Multiple Formats

1. Generate BOQs in Excel, PDF, or CSV formats.
2. Customize exports for tenders, quotations, or internal financial reviews.

With seamless integration, real-time collaboration, and flexible export options, **Hourglass IT's BOQ Software** ensures accurate project cost management, helping you stay on top of your project's financial health.
